The rectangular MILES ceiling light impresses with a striking design featuring four movable rings and a fascinating central 3D tunnel effect. The silver-colored metal body with an elegant silver-leaf finish gives the fixture a high-quality, modern appearance. The shade made of brushed aluminum, opal plastic, and mirrored acrylic creates the impressive depth effect while ensuring even, glare-free light distribution. Thanks to integrated LED technology, MILES delivers a strong lumen output and high energy efficiency. Using the included remote control, the light can be dimmed, the color temperature adjusted from warm white 2700 K to cool white 6000 K, colors fixed, and a night light activated. A practical memory function stores the last selected setting. With a length of 992 mm and a width of 808 mm, MILES is ideal for large living spaces or modern offices.
