The SILVIO floor lamp combines modern design with high functionality, making it a versatile lighting solution for living, reading, or working areas. The straight matte black metal tube forms the base of the lamp and supports two flexible gooseneck spotlights that can be individually adjusted. The flat shades made of matte black metal with satin acrylic décor provide soft, glare-free illumination while adding a decorative accent. The touch dimmer allows stepless brightness control, and the CCT range from 2700 K to 4000 K can be adjusted and fixed to suit any atmosphere. With two separate touch switches, both spotlights can be controlled independently for maximum flexibility. Measuring 550 mm in length and 250 mm in width, SILVIO integrates seamlessly into modern living spaces. The lamp delivers 350 lumens, includes LEDs and an adapter, and features convenient touch on/off functionality. SILVIO offers stylish, customizable lighting at the touch of a finger.
