The EBRO uplighter combines modern design with functional sophistication and creates a stylish lighting solution for your home. The two slim, straight tubes transition elegantly into a gently curved shape and give the light a dynamic yet harmonious appearance. The rotatable uplighter provides even, indirect room lighting, while the integrated reading light with flexible arm enables targeted lighting accents – perfect for relaxing reading moments. The matte coffee-colored surface gives EBRO a warm and cozy touch that blends effortlessly into various interior styles. With the practical rotary dimmer, the light intensity can be individually adjusted and always ensures the right atmosphere. The combination of satin and clear glass completes the design and creates a pleasant, glare-free lighting effect with 3000 Kelvin.
