The SILVIO floor lamp combines modern design with high functionality and is a versatile light source in any living area. The elegant metal tube in matt nickel forms the base of the lamp and supports two flexible flexo spotlights that can be individually adjusted. The two flat shades with satin acrylic finish provide glare-free, pleasantly soft light. Thanks to the touch dimmer and stepless brightness control, the light intensity can be conveniently adjusted to any situation, and the colour temperature can be flexibly selected and fixed from 2700 K to 4000 K. Two separate touch switches allow both spotlights to be switched independently of each other, enabling maximum flexibility. With a size of 550 mm in length and 250 mm in width, SILVIO blends harmoniously into living, reading or working areas. The luminaire offers a light output of 350 lumens, includes LEDs and comes with an adapter. SILVIO is the ideal floor lamp for stylish, individually controllable lighting.
